Nikon Professional Services

Expedited Repair Request

NPS expedited repair is offered only to current members of Nikon Professional Services. We take every step to give you the best quality service in the shortest amount of time possible. We repair all owner specified problems and all DIAGNOSED problems in order to return the equipment to factory specifications. The equipment is then returned to you via an air carrier.

In order to expedite your repair you agree to pre-approve the following:

Up to \$300 = any single film based item

Up to \$450 = any long lens
(ex:300 2.8, 400 2.8, 500 4.0, 600 4.0)

Up to \$650 = any single digital SLR camera body

If any individual repair item exceeds the above Nikon will contact you with an estimate. Of course, you may request an estimate at any time but it will slow down the repair process since no work will be done before receiving your approval.

You may approve any estimate by calling:

1-800-NIKON-SV
(1-800-645-6678)

OR you may approve online at www.nikonusa.com
(you will need your service order number listed on the estimate)

NPS expedited repair is available only for current Nikon SLR Professional equipment. While most pros own a Nikon Consumer Camera, we do not consider them "Professional" equipment. Older, abused, severely impact-damaged or water-damaged equipment may require additional time.

Fill out the address of the repair service which is closest to you on the provided label.
